Community Celebrates Knapp Cardiac Care Center

State of the Art Facility Opens Doors to Patients

EAST PATCHOGUE, N.Y. – Deputy Presiding Officer joined the Knapp Family to celebrate the opening of the new Knapp Cardiac Care Center at Brookhaven Memorial Hospital and Medical Center. The 60,000 square foot, \$60 million center, provides patients from all over the region with state-of-the-art interventional cardiac care.

“Congratulations to Brookhaven Memorial Hospital and the entire surrounding community,” stated Deputy Presiding Officer Rob Calarco. “A very special thank you goes out to the Knapp Family, whose generosity has made the dream of advanced cardiac care a reality. Brookhaven Hospital has long provided quality health care in our community and this expansion is a welcome addition.”

The center will include a catheterization suite, electrophysiology lab, non-invasive cardiology suite, and HD video integrated surgical suites.

The Knapp Family, along with the Brookhaven Memorial Hospital and Medical Center directors, staff and local community leaders, cuts the ribbon at the cardiac care facility.
